

World Autism Month (April)

World Autism Awareness Day- April 2

Every year in the month of April we celebrate World Autism Month and April 2nd is celebrated as world 'Autism Awareness Day'. Our School takes all necessary steps to promote inclusion of every section/ Strata of the society. Bearing in mind such holistic goals our school organized two activities on the same topic:

SLOGAN WRITING for Classes 1 & 2

POSTER MAKING for Classes 3 to 5

The activity was spearheaded by our special educators at school who took charge to make sure that the ultimate aim of the activity was met. The school witnessed maximum participation from the assigned classes for the activity. Each participant showcased enthusiastic performance. This helped each child to understand special needs of their peer groups furthermore modulating behavioral pattern accordingly.
